

M.U ENGINEERS

Govt. Approved Firefighting Agency

FIRE PROTECTION SYSTEM | |
FIRE DETECTION SYSTEM | |
PHE SYSTEM | |

We provide Fire fighting, ELV & PHE solution for various segments in Construction Industry.

We have expertise in High rise building installation, Township, Ware house, Industrial and other Commercial segments.

Having an experienced and agile team to take care of your Fire safety AMC & ensure regular checks on life safety system.

About us

With over 12 years of experience in MEPF Projects, **M.U Engineers** is an Engineering based venture with rich experience in the field of Building Services solutions for Commercial, Residential, Warehouses and Industrial projects.

As an experienced **PHE, Fire fighting & Electrical service provider**, we provide turnkey services from designing of fire pump room, hydrant system, sprinkler system, Fire alarm, Electrical & PHE system to commissioning and AMC of MEPF system from one location to serve better and take care of your building services system to provide safe & energy efficient spaces.

Systems we cater

Fire Detection Systems

- Conventional and Microprocessor based Fire Detection & Alarm System.
- Analogue Addressable and Intelligent Fire Alarm & Detection System.
- Early Smoke Detection System.
- Linear Cables Heat Sensing, Analogue system.

Fire Suppression Systems

- Dry Chemical Powder Systems
- Industrial and Commercial Hydrant piping Systems
- Sprinkler & Hydrant Systems
- High/Medium Velocity Water Spray Systems
- Water Curtain System
- Foam Based system
- Protective Clothing and Breathing Apparatus
- CO2 Total Flooding Systems (High Pressure & Low Pressure)

PHE system

- Water supply system (High Pressure & Low Pressure)
- Drainage & Infra Piping works
- End to End solutions

Electrical and Electronic Security Systems

- Access Control System
- CCTV Surveillance System
- Perimeter Control System

Services we offer

We offer a complete one stop service to our Clients as follows:

- Hazard Analysis

- Site surveys & improvements

- Consultancy

- Design and Engineering

- System Integration

- Equipment Procurement and Supply

- Installation supervision

- Fire system Testing

- Commissioning

- Training

- Preventive Maintenance / Annual Maintenance Contracts

- Building information modeling (BIM)

Fire Alarm & detection system

We have expertise in both conventional and addressable system and are well aware of integration of Fire alarm with emergency systems such as Public annunciation, ventilation, security and access control system. We have experienced of High rise Towers, Residential township, Commercial spaces and Industrial applications.

We cater the following Fire alarm & Public annunciation system:

- Conventional
- Analogue Addressable
- Addressable
